#### WELCOME TO

Ms. Grace Kwok

Mr. Dennis Wu

CHAIRMAN &
EXECUTIVE DIRECTOR

CHIEF EXECUTIVE OFFICER & EXECUTIVE DIRECTOR

Since our inception in 1994, Allied Environmental Consultants (AEC Group) has been steadfast in delivering independent, impartial, and fair consulting services. Our mission has always been to foster positive social progress while championing sustainable development. Over the years, we have been privileged to serve a wide range of clients, including property developers, owners, government bodies, public organizations, architects, designers, and contractors. These partnerships have evolved into long-lasting, trusted relationships that drive meaningful impact.

Today, AEC Group stands as an award-winning sustainability and environmental consulting organization with a broad and dynamic portfolio across Hong Kong, Mainland China, **Malaysia** (**Regional Hub**) and the Asia Pacific region. Guided by a strong commitment to innovation and sustainable design, we remain focused on transforming communities and contributing to a greener, more sustainable future for the world.

Our corporate philosophy is built on three core values: **Excellence**, **Integrity**, **and Customer First**. These principles guide everything we do. We prioritize our people, protect the environment, and continuously innovate to provide high-quality, sustainable architectural and environmental solutions. Through these efforts, we strive to earn the trust of our clients and the recognition of our industry.

Looking ahead, AEC Group is committed to advancing our expertise, embracing innovation, and building on our achievements to contribute even more significantly to the global sustainability agenda. Together, let us continue to shape a future that is both sustainable and prosperous.

Thank you.

AEC Group is dedicated to excelling in innovation and sustainable design, guided by a clear and purposeful set of core values. Our mission is to transform communities positively and contribute to creating a sustainable future for the world and our future generation.

Rooted in our core values of Excellence, Integrity, and Customer First, we prioritize our people, protect the environment, and embrace continuous innovation. We are committed to delivering high-quality, sustainable architectural and environmental solutions that meet the evolving needs of our clients and society. Through these efforts, we aim to earn the trust of our customers and the recognition of the industry while driving meaningful and lasting impact.

#### Since Listed in 2016

Completed the EARLIEST batch of Green Building Projects in Hong Kong

100+ Recognitions

Through achieving commercial success and satisfaction for our clients, we seek to build a sustainable future for all the stakeholders in the community and our future generations.

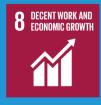

We strive to be the independent environmental consultant of choice for all our clients, a respected name and distinguished reputation within the industry.

#### **Our Effort to Enhance Well-being**

#### Our Effort to Promote Sustainability Awareness

#### Our Effort to Deliver Sustainable Solutions

#### Our Effort to Engage Stakeholders for Value Creation

#### **MILESTONE**

2024

#### 30th Anniversary

• Celebrating 30 years of remarkable achievements in environmental excellence and sustainable practices since its founding in 1994

#### **Expansion to Indonesia & Dubai**

• Deployed business expansion in Indonesia & Dubai

2023

2021

#### Offices in Macau, Zhuhai & Vietnam

 Collaborated with business partners in Macau and Vietnam to capture green and low-carbon industries in Mainland China

2022

#### Office in Malaysia

• Established an office in Kuala Lumpur, Malaysia

#### Sustainature Launch

• Launched Sustainature - a One-Stop ESG Online Management Platform for Enterprises

2020

#### Expansion to Thailand & Singapore

- Deployed business expansion in Thailand
- Set up an office in Singapore

2019

#### 25th Anniversary

• 25th anniversary since its inception, participating in more than 1,700 development projects over the past quarter century

#### **MILESTONE**

2018

#### **Smart Dashboard Launch**

• Launched new products – Smart Energy Dashboard and Indoor Air Quality Solution

2016

#### Listed

• Holding company Allied Sustainability and Environmental Consultants Group Limited ("AEC Group"; Stock Code: 8320) listed on the GEM board of HKEx in October

2015

#### **Venturing ESG Sector**

• Engaged for the first ESG consultancy project

1994

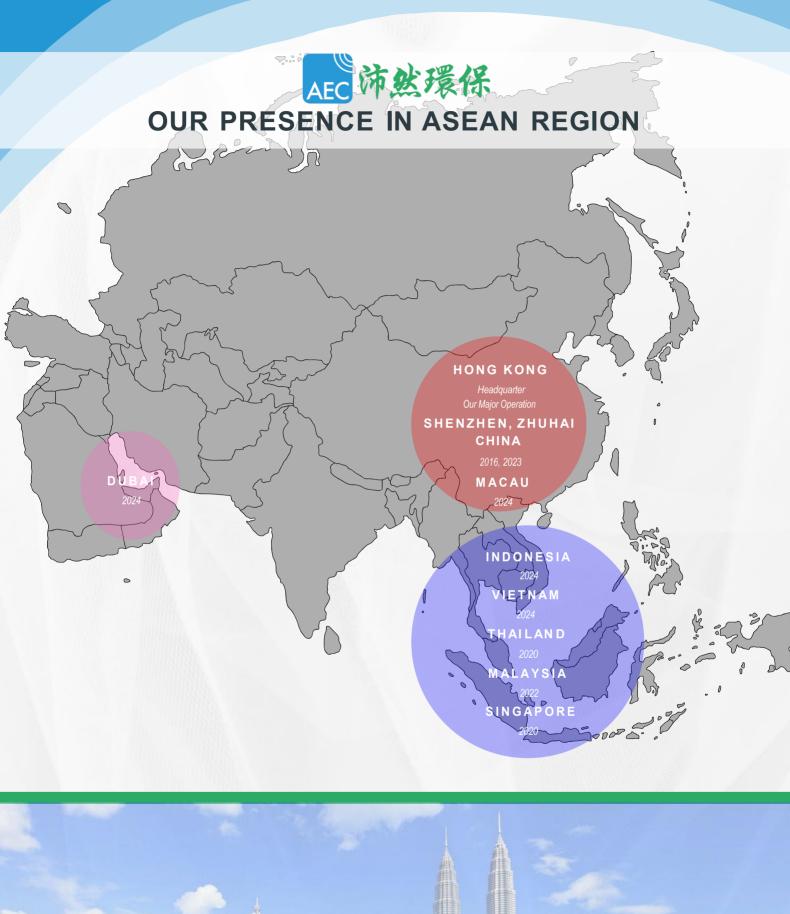

#### **Company Established**

• AEC Hong Kong, our major operating subsidiary, was incorporated

#### SUSTAINABILITY PERFORMANCE

Partnerships are essential for sustainable development. AEC Group, as a leading sustainability and environmental consulting firm, is dedicated to expanding the industry's knowledge base both within and outside. Internally, we identify the material elements of environmental, social, and governance ("ESG") challenges to develop ESG implementation strategies and ESG reports. AEC Group will continue to exploit opportunities and pave the route for net-zero development in the following year.

Committed To
Science Based Target Initiative (SBTi)

#### Scan to read our ESG Report:

## MEET THE TEAM

AEC Group has a team of dedicated staff with broad expertise in providing professional consultancy services to our clients. Our principal and professional teams comprise qualified engineers and scientists with extensive technical and managerial experience in different aspects of environmental engineering. An extensive complement of specialized instrumentation and computing facilities, new tools, and ideas, alongside the company's specialists, empower us to deliver appropriate designs that achieve sustainability for our clients and the wider community.

#### **LEADERSHIP**

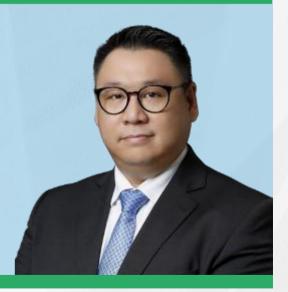

Ms. Grace KWOK
Chairman and Executive Director

- Over 30 years' experiences in acoustics, environmental and sustainability consultancy
- A member of HKGBC Green Building Faculty, BEAM Expert Panel and USGBC Faculty with qualifications including BEAM Pro, LEED Fellow, BREEAM AP, GBL Manager and ISAP
- The first LEED Fellow in Hong Kong and serves the ESG Advisors Club of British Research Establishment (BRE)
- A members of the Advisory Council on the Environment (ACE)

Mr. Dennis WU
Chief Executive Officer and Executive Director

- 30 years of experience in finance industry
- Mainly provides advice on strategic development of the Group and create a greater synergy between the Group's existing business segments, including green finance, ESG advisory as well as Smart & Green IoT
- The Founding President of Greater Bay Area Carbon Neutrality Association, a Co-Chair of Green and Sustainable Private Equity Working Group under Hong Kong Green Finance Association, a Co-Chair of Hong Kong Private Equity Finance Association

**Member of Major Local & International Association:**

• Environmental Impact Assessment (EIA) • Noise Impact Assessment • Air Quality and Odour Impact Assessment • Quality Assessment Land (Land Contamination and Marine Sediment Assessment) • Drainage and Sewerage Impact Assessment • Water Supply Impact Assessment • Water Quality Impact Assessment • Landfill Hazard Assessment • Quantitative Risk Assessment Ecological Assessment • Preliminary Environmental Review • Environmental Assessment Support on Town Planning Applications • Environmental Monitoring and Audit (EM&A) • Independent Environmental Checker • Environmental Team Leader • Environmental Due Diligence Environmental Feasibility Study • Carbon Audit • Waste Management Strategy • Expert Witness • Sustainable Building Design (including Daylight and Natural Ventilation Study, Building Permeability Performance, Air Ventilation Assessment, CFD Study as well as Microclimate Study) • Overall Thermal Transfer Value Study • Building Façade and Energy Study

Environmental consultancy generally refer to the consulting services which are engaged in the process of environmental impact assessment to identify, predict, evaluate, and mitigate the biophysical, social, and other relevant effects of public/private development proposals prior to major decisions being taken and commitments made.

AEC is dedicated to providing expert advice, research, and practical support on all aspects: from strategy and policy to program development, and project implementation. We are committed to providing clients with a high-quality service that meets the latest regulatory framework, and their specific requirements through integrated multi-disciplinary teams or specialist inputs.

Over the years, AEC Group has been involved in numerous development and improvement projects in Hong Kong's major government planning, including:

- The 10-Year Hospital Development plan
- Light Public Housing Projects
- Animal Management and Animal Welfare Building Complex
- EcoPark
- KMB Depot
- Hong Kong Observatory Headquarters
- · University Development in Hong Kong

#### What We Offer

AEC has provided solutions by ensuring the sound quality of concert and lecture halls, and noise isolation privacy for residences and office spaces. AEC possesses a team of acousticians with a depth of project experience to draw from and a diverse set of skills like simulation, computation, and design to navigate this science.

Audiovisual systems are among the drivers of the multimedia technology trend we are seeing become essential in the 21st Century. AEC's AV team can help build these systems from the schematic stage to the integration stage and enrich a patron – and owner – experiences.

## ACOUSTICS, AUDIOVISUAL, LIGHTING & THEATRE PLANNING

AEC offers a comprehensive lighting design service, from initial strategic advice and concept development to construction and on-site support. Our electrical lighting services include architectural, façade, and landscape lighting designs. AEC's lighting team is also skilled in daylight modeling, which, by working closely with architects, enhances natural light distribution through building interiors by reflecting and diverting different colors to materials.

AEC's team is proficient in theatre planning and can provide solutions to functional planning of public front of house areas, back of house circulation, machinery, fly tower and rigging systems, stage engineering, communication infrastructure, seating, lighting sightline studies, and many more technical considerations.

ALVeX Design Consultants Limited is a multidisciplinary professional services firm, a subsidiary of AEC Group, providing design, engineering, and planning services across different aspects of user experiences.

## ABOUT ENVIRONMENTAL, SOCIAL & GOVERNANCE

Leveraging AEC collective expertise, our ESG consultancy services provide businesses with an in-depth understanding of our client's operational social, and environmental impacts while guiding them in their journey to become sustainably operated and resilient businesses.

We adopt a holistic approach to understanding our respective client's business, advise the latest updates on industry trends, raise awareness on ESG matters, build capacity, assist in policy enhancements, and review sustainable operations. AEC offers innovative and engaging solutions for our clients to enhance the sustainability performance of their business operations.

#### Our Approach

Develop a long-term carbon neutrality roadmap to align with Paris Agreement, China's '30·60' decarbonization goal, Hong Kong's Climate Action Plan, etc.

7. Carbon Neutrality

Speak the green language such as SDGs via sustainable PR to promote ESG's reputation, engage with Corporate Responsibilities and introduce more high-quality international and local investors and family funds to awards.

6. Sustainable PR

Leverage sustainability activities according to corresponding taxonomy to green finance application and introduce new investors and new capital including sustainable investment and green loan.

5. Green Finance

Track and enhance internationally and locally aware sustainability financial indices or ratings, e.g., PRI, MSCI ESG, DJSI, CDP, GRESB, Sustainalytics, HSSUS, SFDR.

4. International ESG Benchmark

Introduce green tech, renewable energy, Prop-tech or other energy efficiency measures upon business nature.

3. Green Technical Enhancement

Enhance ESG performance and governance by arranging ESG policies and setting up ESG committee to monitor and supervise and implement TCFD and ISSB.

2. ESG Performance

Meet basic reporting compliance standards such as HKEX, Bursa Malaysia (or any equivalent local standards), TCFD and ISSB reporting, international GRI reporting standards and regulations.

1. Basic Compliance

GREEN FINANCE,
Sustainability Strategies, & ESG

## Sustainability Strategies & ESG

#### What We Offer

Benchmark & gap analysis
 Sustainable development roadmap
 Net zero roadmap
 Advise on carbon trading
 Green finance advisory

• E-survey • Interview & workshop • E-Learning platform

Materiality Assessment

• Matrix generation • Sustainability risk & opportunity identification

- Cloud-based ESG data collection and management
- Environmental assessment Carbon audit

**Data Collection** 

Content Development

• UN Sustainable Development Goals (SDGs) mapping • Global Reporting Initiative (GRI) standard • ESG Reporting Guide • Task Force on Climate-related Financial Disclosures (TCFD) recommendations • International Sustainability Standards Board (ISSB) • Reporting services that meet mandatory ESG-reporting requirements including the Hong Kong Stock Exchange, Bursa Malaysia Securities Berhad, the Stock Exchange of Thailand, and Indonesia Stock Exchange

- Independent assurance e.g. AA1000 Corporate policy enhancement
- Science Based Targets initiative (SBTi) Global Real Estate Sustainability Benchmark (GRESB) Assessment

#### **GREEN FINANCE**

As a green planner specializing in the built environment and corporate sustainability, AEC integrates ESG opportunities and risks into business strategy to attract investors to finance projects with environmental benefits. We provide a range of advisory services related to green finance.

#### What We Offer

Green Finance
Advisory &
External Review

• Identifying green projects and assets • Developing the exemplary criteria for green financing mechanisms • Setting up procedures for tracking and reporting on the use of proceeds; and • Providing external review under the International Capital Market Association's (ICMA) Green Bond Principles and Green Loan Principles • Loan Market Association (LMA)

ESG Research & Analysis

Global Real Estate Sustainability Benchmark (GRESB) Assessment
 Task Force on Climate-related Financial Disclosures (TCFD) recommendations
 Sustainability Accounting Standards Board (SASB) standards
 Carbon Risk Real Estate Monitor (CRREM) Project; and
 Other globally recognized standards

#### **Climate Resilience & ESG Solutions:**

#### SMART CITIES & GREEN TECH

AAEC has developed Sustainature, a comprehensive cloud-based platform designed to streamline ESG data collection, management, and analysis for corporations. This platform enables organizations to monitor and enhance their ESG performance by facilitating target setting and tracking across their entire portfolio.

#### What Sustainature Does

**Target Tracker** 

**Progress Tracker** 

**Live Chart** 

Visual Data Check Tool

Background Logic Check

Reporting Scope Adjustment

Data Centralization

Carbon Reduction Monitoring

Data Process Streamline

**Report Generation** 

## Sustainature All-in-one ESG Solution

#### One Button to ESG Reporting & Data Management

Sustainature is an online management platform that simplifies the process of ESG data processing for enterprises of all types, analyzes and manages data in one place, and helps generate ESG Reports in compliance with the requirements of The Hong Kong Stock Exchange and in accordance with the Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Malaysia").

#### Signing Ceremonies

AEC Group Advocates for Sustainable Development with the 'Eco-Renovation Charter

#### **PARTNERSHIP & INNOVATION**

AEC Group expands our business beyond environmental consultation to include sustainable financing, sustainable operation advise, deep technology in marine, sustainable building materials, internet intelligence tracking, and big data.

#### **Green Finance**

Collaboration with Standard Chartered Bank to provide financial services in the scope of Sustainable Financing, Investment Management, Capital Raising, and Real Estate in the Asia Pacific region.

#### **Sustainable Construction Material**

Synthetic material made from post-use and that is 100% recyclable, strong and durable, highly customisable.

#### **Solar PV and BESS**

Renewable energy resources that is widely used across the entire global. Straight forward and easy to start with. Battery technology that stores energy for future use.

#### **Sustainable Aviation Fuel**

An alternative fuel made from non-petroleum feedstocks that reduces emissions from air transportation.

#### Marine Ecosystem Restoration

Precast micro-habitat units for variety of intertidal conditions as artificial seawalls. Produced with recycled aggregates and byproduct waste cement replacements.

#### **Bamboo Materials**

Constructions featuring lower embodied carbon from nature are being developed, such as an eco-friendly Bamboo Based Modular integrated Construction ("BMiC"). BMiC can be applied in transitional housing, social housing, and other social facilities.

#### **PARTNERSHIP & INNOVATION**

AEC Group expands our business beyond environmental consultation to include sustainable financing, sustainable operation advise, deep technology in marine, sustainable building materials, internet intelligence tracking, and big data.

#### Acoustic, Audiovisual, Lighting & Theatre Planning

Multidisciplinary professional services providing design, engineering, and planning across different aspects of user experiences.

## Sustainability Database & Internet Intelligence

Joint venture collaborations are established to foster the development of Carbon reduction, ESG, and Sustainability - AI & Big Data Analytic Platform, which is empowered by artificial intelligence and big data business analysis.

#### **Waste to Energy**

Reimagining waste for climate impact with flexible waste input and zero emission output. Producing OmniSyngas, OmniRock and Water.

#### **Smart City**

Transform Your Business with SMART City Solutions, by harnessing the power of artificial intelligence (AI), machine learning, the Internet of Things (IoT), and data analytics.

#### **Sustainability Communication**

Sustainability services are provided in four major areas: (i) Sustainability Business Operation Advisory, (ii) Sustainability Communication, (iii) Sustainable Finance, and (iv) Sustainability Academy.

#### **Climate Resilience Technology**

An innovative partnership is established to perform a physical climate risk assessment to identify flooding, wind speed/pressure, and storm intensity with climate scenarios.
